## An Individually Coded Management System for Dealer Demo Plates

### Securitag SS Series

The all new Securitag SS Series was designed as a result of 20 years of providing dealer demo plate security solutions. It meets the demo plate availability, control and security requirements of modern dealerships. The Securitag SS Series incorporates the proven, Patented Securitag system into a durable brushed stainless steel case. The SS Series easily meets the demo plate requirements of sales forces 8 to 18 strong. **Reduces liability** caused by unreported loss of plates. **Reduces the number** of plates needed for the sales force. **Prevents plates** from being **loaned** to persons outside the dealership. **Prevents unauthorized use** by dealership personnel. **Prevents "Curbing"** of used cars by salespersons. **Prevents unauthorized use of vehicles** out of dealer stock.
